

# How to collect Windows system event log and WLAN-AutoConfig log

Steps to collect system event log and WLAN-AutoConfig log

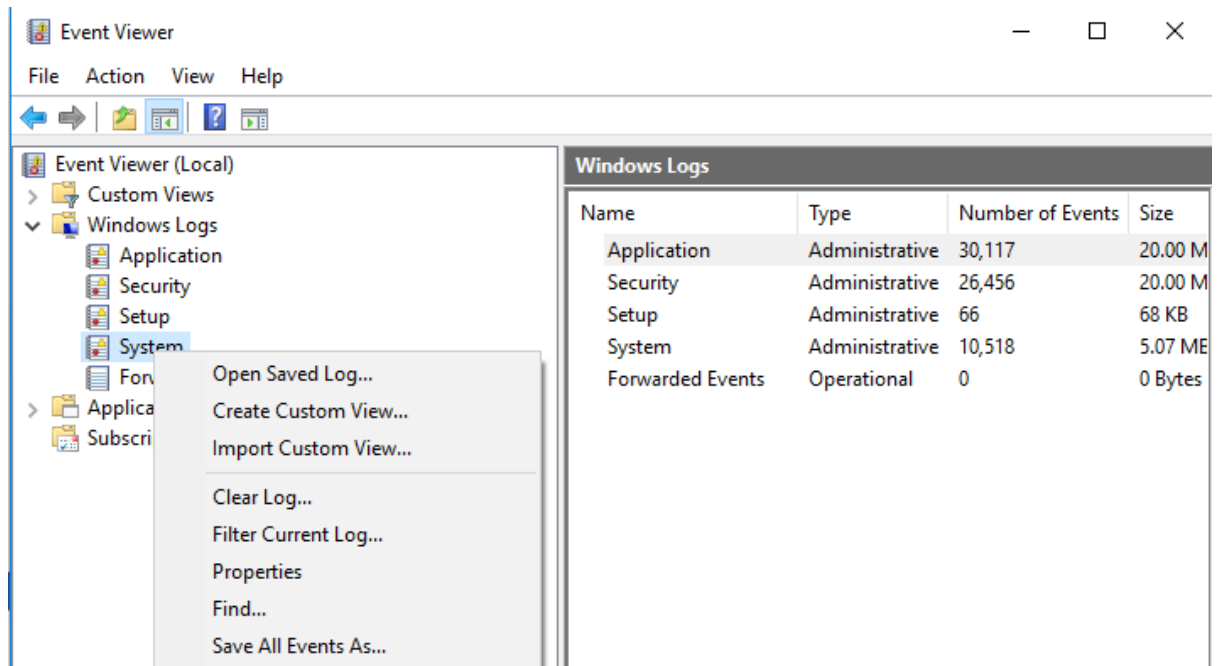

1. In Windows search, search for “event” and select “Event Viewer”

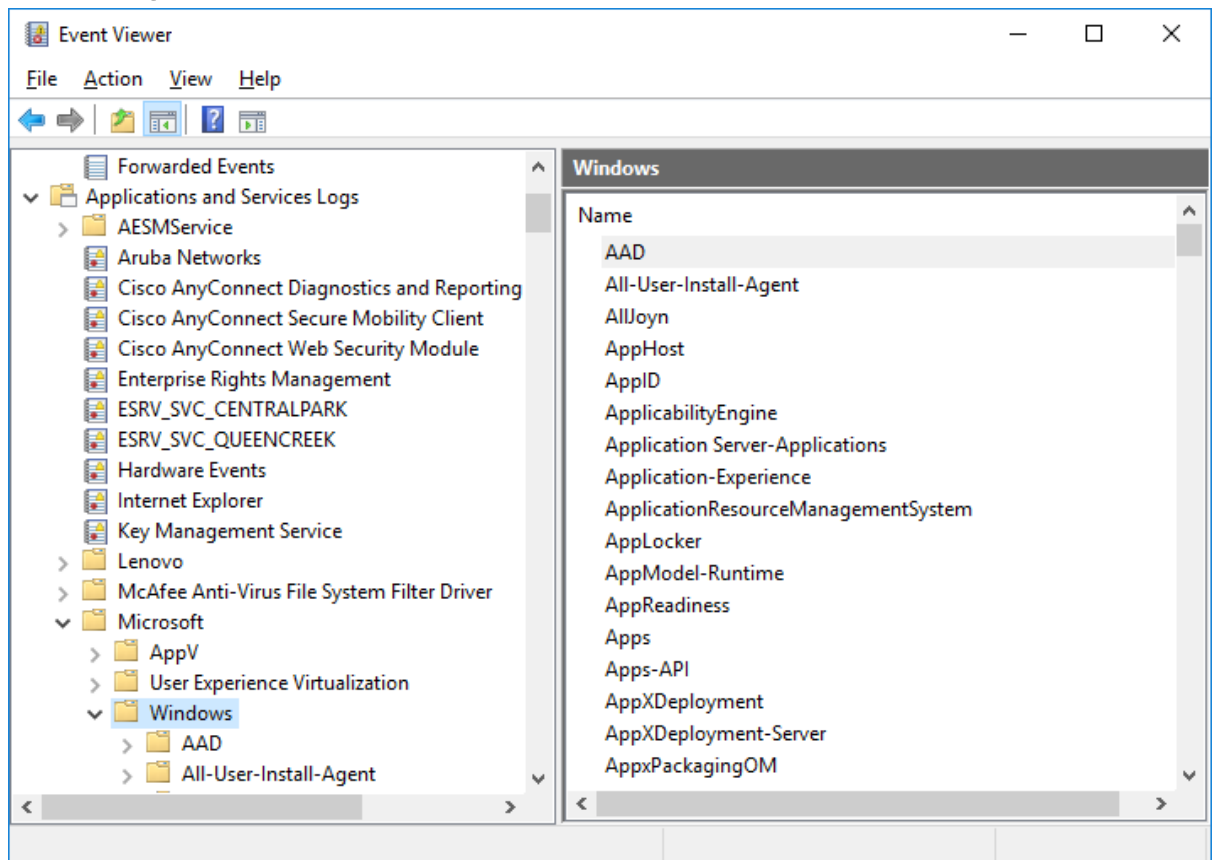

2. On the left pane, expand “Windows Logs”

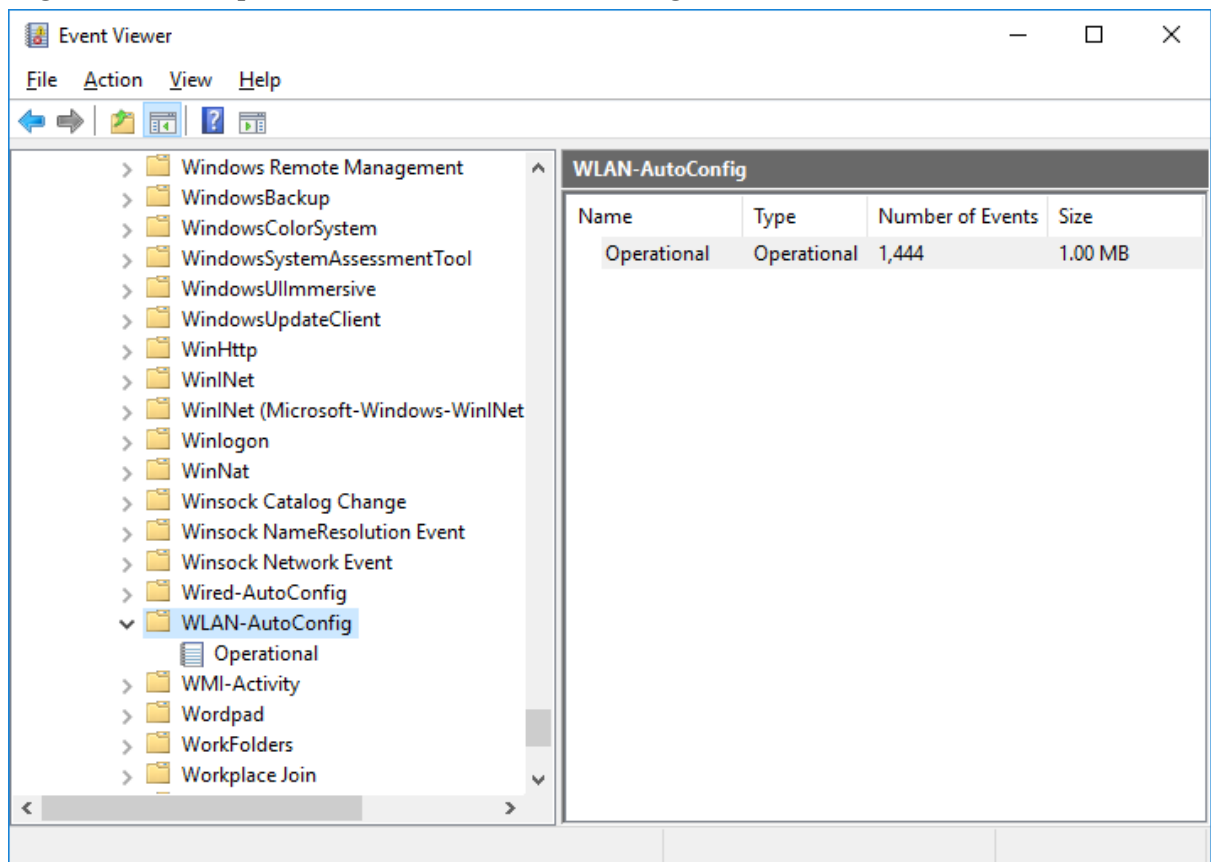

3. Right click on “System” and select “Clear Log...”

4. Expand “Applications and Service Logs” -> “Microsoft” -> “Windows” -> “WLAN-AutoConfig”

5. Right click on “Operational” and select “Clear Log...”

6. Reproduce issue.
7. Reference above steps (instead of Clear Log... choose **Save All Events as...**) to save the system event and WLAN-AutoConfig logs in **.evtx** format.
